and placed on sale by H.M. Stationery Office

CP No.	Council No.	Title	Author(s)
1301	34 822	Some remarks on the induced velocity field of a lifting rotor and on Glauert's formula. October 1973.	Bramwell, A.R.S.
1302	35 404	Boundary-layer pressure fluctuations at high Reynolds numbers on a second free-flight test vehicle. February 1974.	Roberts, D.R.
1303	34 738	Film cooling effectiveness from rows of holes under simulated gas turbine conditions. December 1973.	Smith, M.R., Jones, T.V. and Schultz, D.L.
1304	35 297	A comparison of flight loads counting methods and their effects on fatigue life estimates using data from Concorde. December 1973.	Goodwillie, Ann G.
1305	35 284	A short study of the effect of a penetrant oil on the fatigue life of a riveted joint. October 1973.	O'Neill, P.H. and Smith, R.J.
1306	33 753	Deformation and failure under multiaxial stresses - a survey of laboratory techniques and experimental data. January 1972.	Evans, W.J.
1307	35 096	The prediction of boundary-layer behaviour and profile drag for infinite yawed wings: Part I - A method of calculation. May 1973.	Thompson, B.G.J. and Macdonald, A.G.J.
1308	35 095	The prediction of boundary-layer behaviour and profile drag for infinite yawed wings: Part II - Flow near a turbulent attachment line. May 1973.	Thompson, B.G.J.

CP No.	Council No.	Title	Author(s)
1309	35 094	The prediction of boundary-layer behaviour and profile drag for infinite yawed wings: Part III - Calculations for a particular wing. May 1973.	Thompson, B.G.J., Carr-Hill, G.A. and Ralph, M.
1310	34 897	The dynamic stability derivatives of a slender wing at zero and moderate lift; a comparison of theory with free-flight model tests, $M = 0.8$ to 2.0 . May 1973.	Ross, A. Jean, Edwards, Geraldine F. and Waterfall, A.P.
1311	34 645	Thrust/drag analysis for a front fan nacelle having two separate co-axial exhaust streams. February 1973.	Street, P.G.
1312	32 257	An investigation into the duty cycle of powered flying controls. Parts 1 and 2. May 1969 and April 1973.	Holoubek, F.
1313	35 564	A finite-difference scheme for computing supercritical flows in arbitrary co-ordinate systems. July 1974.	Albone, C.M.
1314	35 433	Fatigue crack propagation in thin sheets of L73 under constant strain amplitude. March 1974.	O'Neill, P.H.
1315	35 501	Free-flight model dynamic stability measurements on a 'not-so-slender' wing/fin combination at zero and small lift, $M = 0.8$ to 2.0 . April 1974.	Greenwood, G.H. and Edwards, Geraldine F.
1316	35 451	Observations of the flow from a rectangular nozzle. March 1974.	Kurn, A.G.
1317	35 231	Measurements of oscillatory aerodynamic hinge moments from the response of a wind tunnel model to turbulent flow. August 1973.	Hutton, G.B., Drane, D.A. and Gaukroger, D.R.
1318	35 906	The effect of load dwells during fatigue crack propagation. November 1974.	Kiddle, F.E.
1319	35 650	A theoretical and experimental investigation of the external-flow, jet-augmented flap. July 1974.	Ashill, P.R.

CP No.	Council No.	Title	Author(s)
1320	34 437	The characteristics of a family of rooftop aerofoils designed at their drag-rise condition in viscous, compressible flow. Part I: Design condition. July 1972.	Thompson, B.G.J. and Cosby, S.W.
1321	34 467	The characteristics of a family of rooftop aerofoils designed at their drag-rise condition in viscous, compressible flow. Part II: Off-design conditions. July 1972.	Thompson, B.G.J. and Cosby, S.W.
1322	35 863	A non-axisymmetric end-wall boundary-layer theory for axial compressor rows. August 1974.	Railly, J.W.
1323	33 412	Developments in the lifting surface theory treatment of symmetric planforms with a leading edge crank in subsonic flow. October 1972.	Hewitt, B.L. and Kellaway, W.
1324	35 314	An assessment of the accuracy of subsonic linearized theory for the design of warped slender wings. October 1973.	Davies, Patricia J.
1325	34 955	Systems of co-ordinates suitable for the numerical calculation of three-dimensional flow fields. May 1973.	Mangler, K.W. and Murray, J.C.
1326	35 971	Low-speed wind-tunnel tests of a two-dimensional wing fitted with two plain, differentially-deflected, trailing-edge flaps. December 1974.	McKie, John
1327	35 795	The theory of partial retraction of imperfectly elastic ropes. December 1974.	Stevens, G.W.H.
1328	35 978	Measurements of pressure distribution on a half-model wing-body combination of 55° sweep over a wide range of Reynolds number. October 1974.	Winter, K.G. and Moss, J.B.
1329	35 771	Urea formaldehyde foamed plastic emergency arresters for civil aircraft. January 1974.	Gwynne, G.M.

CP No.	Council No.	Title	Author(s)
1330	35 793	The development of portable coolers for the liquid conditioned suit. August 1974.	Barlow, G.F.
1331	31 532	Interference problems on wing-fuselage combinations. Part I: Lifting unswept wing attached to a cylindrical fuselage at zero incidence in midwing position. July 1969.	Weber, J.
1332	33 437	Interference problems on wing-fuselage combinations. Part II: Symmetrical unswept wing at zero incidence attached to a cylindrical fuselage at zero incidence in midwing position. August 1971.	Weber, J. and Joyce, M.G.
1333	35 413	Interference problems on wing-fuselage combinations. Part III: Symmetrical swept wing at zero incidence attached to a cylindrical fuselage. December 1973.	Weber, J. and Joyce, M. Gaynor
1334	35 294	Interference problems on wing-fuselage combinations. Part IV: The design problem for a lifting swept wing attached to a cylindrical fuselage. December 1973.	Weber, J. and Joyce, M. Gaynor
1335	35 921	Measurements of secondary loss in a model turbine with variable inlet boundary layer. February 1975.	Denton, J.D. and Johnson, E.G.B.
1336	35 085	An assessment of the importance of the residual flexibility of neglected modes in the dynamical analysis of deformable aircraft. July 1973.	Taylor, A.S. and Collyer, M.R.
1337	35 979	Design and theoretical assessment of experimental glide path and flare systems for a BAC1-11 aircraft (including direct lift control). January 1974.	Gill, F.R. and Corbin, M.J.
1338	36 110	The concept of load diffusion length in fibre reinforced composites. February 1975.	Mansfield, E.H. and Best, Doreen R.

CP No.	Council No.	Title	Author(s)
1339	36 063	The influence of fibre waviness on the moduli of unidirectional fibre reinforced composites. December 1974.	Mansfield, E.H. and Purslow, D.
1340	35 865	Evaluation of a loading form for the calculation of linearised theory pressure distributions in wings with control surfaces having swept hinge lines in steady subsonic flow. January 1975.	Wigley, T.G.
1341	35 652	The prediction of helicopter rotor hover performance using a prescribed wake analysis. June 1974.	Young, C.
1342	36 487	A study of thermal fatigue acceleration in box beams under mechanical and thermal stress. March 1975.	Kiddle, F.E., Kite, R.J. and Mousley, R.F.
1343	36 079	A piloted flight simulation of the Westland Lynx. July 1974.	Wilcock, T.
1344	36 303	Not published.	
1345	35 428	A theoretical investigation of high-speed axisymmetric turbulent mixing layers with large temperature differences. October 1975.	Carpenter, P.W.
1346	34 702	Measurement of the internal performance of a rectangular air-intake at a Mach number of 0.9. January 1973.	Brown, C.S. and Goldsmith, E.L.
1347	36 140	The influence of fibre distribution on the moduli of unidirectional fibre reinforced composites. December 1974.	Mansfield, E.H.
1348	36 372	Numerical methods for calculating unsteady flows in subsonic and supersonic turbomachinery cascades. November 1975.	Hobson, D.E.

CP No.	Council No.	Title	Author(s)
1349	36 216	The effect of geometry on the fatigue strength of aluminium alloy lugs. March 1975.	Kiddle, F.E.
1350		List of Current Papers published for the Aeronautical Research Council Nos.1301 - 1349.
